

PRACTICALITY BROWN

FACT SHEET: SCREENING TREES

Ilex aquifolium Nellie R Stevens (Holly Nellie R Stevens)

Ilex aquifolium Nellie R Stevens has lustrous green glossy leaves are more smooth than spikey. The red berries are great for birds in the autumn and winter, which brighten up the garden as well as providing food and nesting for birds. Originally cultivated in 1900 in America.

It is ideal for screening due to its symmetrical habit, density and it makes an attractive pleached tree too. We have the following standard screening trees, as well as various pleached trees – please *contact us* for more details.

Ideal Conditions: Grows well in well-drained soil, is drought tolerant, needs sun-partial sun
