## FACT SHEET: SCREENING TREES

### **Viburnum tinus Lucidum (French Laurustinus)**

The Viburnum Lucidum originates from south of Europe. It grows into a large shrub with dark green, shiny leaves. These can be up to 10 cm in length and 4 cm wide and are ovate with a pointed end.

It grows into a dense, bushy and rounded habit and produces cymes of small fragrant white, fragrant flowers in late winter, which stay in bloom until mid-spring. This tree also produces small, bluish-black berries in autumn.

Viburnum Lucidum is known for attracting bees and birds. It has nectar/pollen rich flowers, provides shelter and habitat and has seeds for birds.

The RHS has given this tree an Award of Merit.

We have this evergreen screening tree as standard, feathered and in pleached form. It is an excellent tree for creating privacy in your garden.

Ideal Conditions: Grows well in most conditions prefers an open position.

Maximum Height: 6 metres

GIRTH	HEIGHT	SPREAD	FORM	PRICE
12 - 14	200 - 250		Standard	£424.00
